

Positions: Forest Technician (Timber Cruising)

Location: Redding, CA

Overview:

The Forest Technician is responsible for gathering an accurate forest inventory using the latest in forest mensuration technology. We employ both a fixed radius and variable radius sampling methodologies. These are carried out over a vast industrial forest landscape throughout Northern California. We are currently expanding our inventory team and are looking for the right people to advance at Alpine.

Responsibilities and Duties:

- Reports to the Cruise Forman
- Gather forest inventory data with a high level of accuracy
- Operate a broad array of company vehicles
- Maintains issued equipment
- Maintain a safe and clean camp throughout the field season
- Follow company safety standards

Qualifications:

- Preferred but not required, completed or actively pursuing a 2 or 4-year forestry-related degree
- Good physical condition
- Ability to operate and communicate as part of a team
- Willingness to be away from home for 5 days at a time
- Willingness to overcome adverse outdoor conditions
- iOS and Windows proficiency
- Attention to detail
- Valid Drivers' License and insurable driving record

Compensation:

Seasonal position with a starting hourly rate of \$20
