

CLIFTON

ENVIRONMENTAL, LLC

Forestry Technician

Full-Time, Seasonal

The wage range for this position is \$20 to \$28 per hour, with offered compensation determined by the candidate's qualifications and availability.

Applicant Skills:

- Ability to keep accurate records.
- Ability to sight-identify northern California tree species or willingness to learn to recognize tree species.
- Ability to drive both a 4x4 vehicle and ATV safely across narrow, steep, seasonal ranch roads.
- Ability to navigate using a compass and hard copy field map, in addition to digital navigation tools, or a willingness to learn to use these tools.
- Willingness to learn basic ArcGIS mapping skills.

Physical Requirements:

- Ability to hike through various vegetative landscapes, carry up to 20 pounds on your back.
- Ability to hike, off-trail, for 2-4 miles in a day.
- Ability to hike in steep, rugged terrain during extreme weather (such as in the rain or on hot days) where poison oak may be prevalent.
- Ability to sit at a desk during a 4-hour office day, use a computer, keyboard, and mouse.

Additionally:

An ideal candidate will be a curious, continual learner that is generous and able to work well with others. Ideally, they will have an undergraduate degree in forestry or a related field with relevant course work, or an interest in pursuing further education in the natural resources field. A valid driver's license is required. This position is entry-level and seasonal (beginning Spring/Summer 2024) with potential to transition to year-round.

Interested parties should send a letter of interest and resume with references to Estelle Clifton via email (estelle@cliftonenvironmental.net), or call Estelle at (707) 234-1978.

Clifton Environmental LLC was founded in 2022 by Registered Professional Forester and Botanist Estelle Clifton to provide cost effective planning and project oversight services, independent scientific evaluations of natural environments, forestry project oversight and planning, evaluations of cultural resources, and general land management consulting services in Northern California.
